U.L.S.S. 2 Marca trevigiana
U. O. di Otorinolaringoiatria

Dear Colleagues,

we are pleased to invite you to the 4th Oncological Laryngology International Master, in Vittorio Veneto - Italy. After the success of the first edition in English, we renovate the event involving both surgeons and oncologist radiotherapists, skilled in laryngeal oncology.

The scientific program will start with an introduction of laryngeal oncology concepts, that will focus on the basics of knowledge that we consider essential to the laryngologist who wants to deal with oncology. On the following days, live surgery (transoral laser microsurgery and open surgery) will be proposed in 2D-3D vision in the morning, with the possibility of direct communication between surgeons and learners. Lectures dealing with specific topics and round tables chaired by skilled laryngological surgeons will be presented in the afternoons.

We want to thank our International Guests Vinidth Paleri (UK), Małgorzata Wierzbicka (Poland), Jeroen Meulemans (Belgium), Ricard Simo (UK), Vincent Vander Poorten (Belgium) and Prathmesh Pai (India) for their participation. We also thank all the medical and paramedical staff of the Otolaryngology Unit of Vittorio Veneto Hospital, without whose contribution, this event would not be possible.

Best regards,

Andy Bertolin
